“ I felt very motivated to participate in this program because it seems to be a unique opportunity to see two world leaders in innovation, MIT and Stanford, and bring new ideas, experiences and knowledge that promote the improvement of the project.

Jorge Sales Gomes, CEO at Brisa Inovação, Portugal

“ The consistency of the program is remarkable, indeed recommended. Now it's a matter of continuity, it is necessary that companies can also apply what we have seen here and can apply models so successfully as those we visited here.

Rui Boavista Marques, Board Member at AICEP Portugal Global, Portugal
